Staffing guidelines required for a pool party:

Number of People*	Number of Lifeguards
-------------------	----------------------

1 to 25 people	1 lifeguard
26 to 50 people	2 lifeguards
51 to 100 people	3 lifeguards
101 + people	4 or more lifeguards

“Number of People” guideline is based on TOTAL PARTY ATTENDEES, NOT estimated swimmers.”

The total number of attendees **includes anybody who will be inside pool gates** as lifeguards are responsible for the safety of every patron, both in the water and on the pool deck.

In addition, parties involving **alcohol, teenagers or college-aged people** will require one additional lifeguard. For all events, the rate is \$40/hr. per guard.

Ex. You have 40 people attending the event from 6pm-8pm. You would need two guards for 2 hours. Each guard is \$40 per hour so your total for the event will be \$160 plus \$25 administration fee.

Special Circumstances Requiring Additional Staffing/ Costs:

- **Homeowners Associations that require a security guard** for parties that has alcohol are not required to have an additional lifeguard, but the party sponsor is required to hire the security guard through the Homeowners Association. **Please note: some Homeowners Associations do not allow alcohol.**
- For a party involving children, teenagers, or college-aged people, party sponsors must have **one adult chaperone for every 10 people.**
